

# XBO Partners Sprint 196 Release Notes

(January 06, 2026)

## XBO Partners

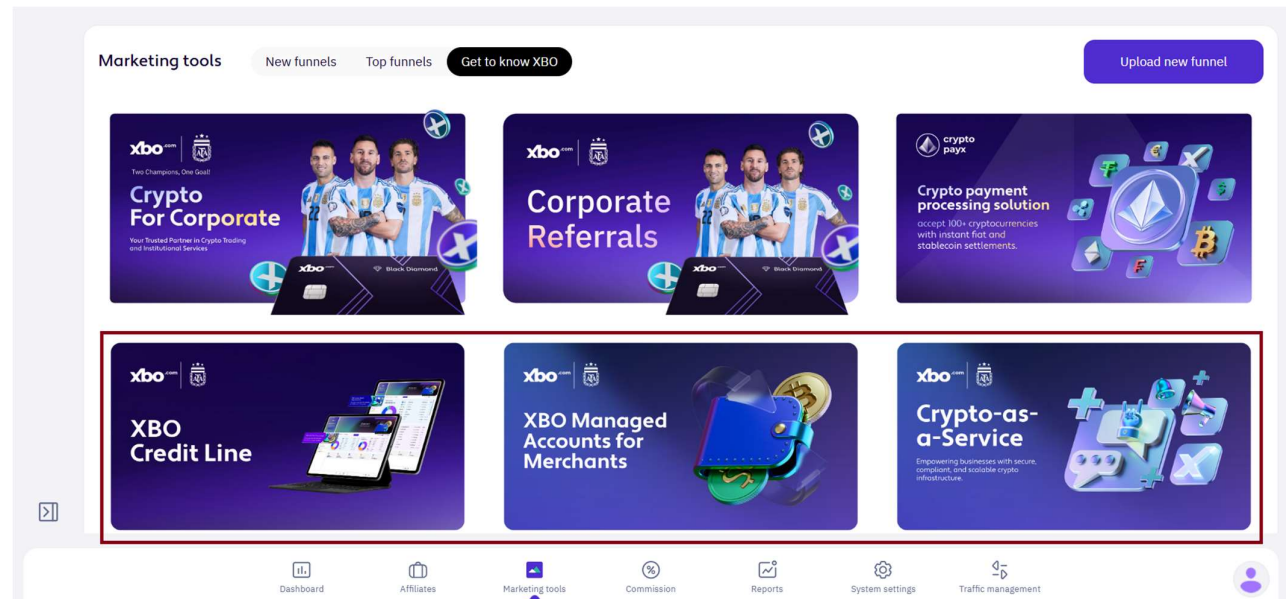

Add PDF Files to 'Get to Know XBO' Section

Get Deposit Address for Leads

# XBO Partners

## Add PDF Files to 'Get to Know XBO' Section

The new PDF documents are added to the XBO Partners system to help users operate and navigate the platform more efficiently. The documents appear under **Marketing Tools** → **Get to Know XBO**, where clickable cards open each PDF in a new tab.

## Get Deposit Address for Leads

Affiliates can now create and retrieve a crypto deposit address for their leads via the API using partner credentials. When a lead is created, a deposit address is generated based on the ACC/lead email as part of the existing lead creation flow.

To retrieve the address, two parameters are used: **network** and **coin**. The currency defaults to USDT, and the network defaults to ERC20. If a deposit address already exists for the lead, it is reused; otherwise, a new one is created.
